

CIEU

He's a figurative graffiti artist. His art is ironical and humoristic or famous lines like the theatre system he used to work in. He will merge loads of different themes as women extended on a sofa smoking, super heroes with childhood matters. Cieu likes to play with words as he is deeply inspired by poetry on his street art canvases. Even the titles of his works reflect his sensitivity and rigor to his art. His universe is full of spontaneity, emotions and fragility giving a raw visual impact.

Cieu aka Thomas began his artistic career as a stage actor. However when he was fifteen years old he started to tag murals in the streets. Envie d'Art is proud to show the work of this very young and talented street artist in major Worldwide Art Fairs in France, England, Sweden, Germany, Asia and New-York alongside our four galleries in Paris and London.
