

## Joanna PEYTON-JONES

---

Joanna delivers a gift service creating highly personal, bespoke neon art. Your unique hand writing and treasured words or sketches are immortalized in spectacular illuminated pieces of art which make dramatic focal points in your homes. From intimate messages between couples to children's precious notes of love to their parents, Joanna and her team turn short handwritten inscriptions into incredible artworks that literally light up people's lives. A bespoke commission takes approximately 4 weeks from confirmation of the order and prices. Over 15 neon colours are available to choose from, which can be displayed on a number of different mounts, including painted backboards to match your wall, clear perspex or a photo of your choice, creating a truly bespoke and exceptionally personalized work of art. In this digital age, with handwritten letters and notes increasingly rare, people particularly cherish something so individual and thoughtful that permanently captures a special moment in time. Commissions to date include words, phrases and names special to the customer or their loved ones. As neon can be hung in any room the possibilities of what is written is huge, it will no doubt be hard to pick only one thing! Check out the website for some awesome examples of previous work.

### BIOGRAPHY

Joanna has a degree from the London College of Furniture and uses her knowledge to produce these funky cool and memorable pieces. Joanna Peyton-Jones is exhibiting for the first time with Envie D'art Gallery. For Joanna there is nothing cooler and more emotive than neon signs. Joanna got involved with neon when she was looking for a unique and special present to give.
