

## Dan Parry Jones

---

Bristol based artist Dan Parry-Jones initially trained in Illustration and Graphic Design, before turning to painting in 2008. Working from Bristol's Jamaica Street Studios, Dan produces expressive mixed media landscapes, taking inspiration from his urban surroundings, the southwest coast and travels abroad. His increasingly abstract backgrounds are constructed with a heavily textured, impasto technique in acrylics and oils with added typography, collage and silkscreen elements. His work has been widely exhibited at major art fairs and gallery shows in Europe, Asia and the USA. He has a number of forthcoming shows for 2018/19.
