Opening date 17 April 2019

Press Release

After her retrospective at the Museum of Gajac in Villeneuve sur Lot, we have the pleasure of inviting you to Silvia Calmejane's Solo Show. The artist will present her latest creations, paintings, totems, sculptures and will dedicate her first book. Silvia Calmejane is a free artist. Her artworks convey universal messages of peace, tolerance, love and hope, aspiring to see humanity finally change. Pleasure and game are the driving forces of her creation. Painted colors, pastels and felts match and transcribe the mystery of humankind with its strengths and flaws. The characters are painted on a flourishing nature, thus questioning our presence in the world and our becoming. Their nudity expresses our desire for freedom. The mixed medium used, wood and plexiglass, gives her work a double reading, a striking depth and an intense light. Delicate artworks that challenge us as much as they soothe us.
