

Richard Heeps

Richard Heeps a photographié pendant plus de 10 ans les ambiances des quartiers populaires des Etats-Unis et de Grande Bretagne. Dans une démarche de séduction et avec des couleurs hautement saturées, l'artiste nous montre son amour et son empathie réelle pour ses sujets. Son travail s'inspire des années 40 et 50, il nous raconte une histoire, un état d'esprit à travers une poursuite acharnée du rêve américain. Ses photos deviennent alors une sorte de photo-documentaire personnel, passant des clubs de strip-tease du Bedfordshire en Angleterre aux performances burlesques d'Hollywood.
