

## Begoña Terradas

---

Born in Badalona in 1983, Begoña Terradas has a degree in Fine Arts and in Illustration.

The artist works on handmade embroideries that show an enigmatic, silent, and emotional world of her own, with touches of humor, using her own home and what she finds inside to talk about isolation, it is not known if forced or voluntary. An intimate work with a technique (sewing the drawings) traditionally linked to the feminine world, which emphasizes what is delicate, small, and subtle about her work.
