

Thibault Laget-ro

Laget-ro starts his education in the University La Sorbonne where he graduates in economy. He then enters the Fine arts of Bets in the studios of Hubert de Chavron and Jean-marc Thommen : that's where he will develop a very graphic style, close to the illustration. Pulling his inspiration mainly from mass media and male icons. It is in the United States that he will develop the concepts of "Ministories". Born in 1976 in Tokyo Japon, Thibault Laget-ro is painter of the "free figuration".
