Xavier Visa

The originality of Xavier Visa's work resides in a blur printing and instant stolen. His painting is surprisingly realistic , like a picture that should have blurred the image. The moments are those he chooses his hometown , Barcelona which he transcribes we feel. His painting reminds us of times that we all lived and plunges us into a certain nostalgia.
The dreamy effect and blur his works allows us to identify with the characters in his paintings and to return to his world. Each work has a strong hue with environments that affect us .
Biography
He was born in Barcelona - Spain, in 1968.
He lives and works in Barcelona.
Education
Licenciado en Bellas Artes en la especialidad de pintura - University of
Barcelona
