

## Renaud Delorme

---

The main idea of Renaud Delorme is to make balance color and size on his works. On a base of daily goods (tennis balls, keypad...), the artist applies a black picture on plasti. This technique is typical of the pop art movement.

### BIOGRAPHY

Soon after a few group exhibitions, Renaud Delorme quickly received his first solo exhibition, run by Lefranc Bourgeois.

In 2000 Renaud Delorme recieved the prize of the A.D.A.G.P.

In 2006 one of the artist's works was on the cover of Arts-Antiques-Auctions magazine.
