

RMB

Brigitte Perrier expresses her creativity in a pop and colorful way on cubes as well as on columns. Among her favorite topics and sources of inspiration: the advertising mascots and Hollywood's famous figures such as James Dean and Marilyn Monroe.

"Through my realisations, I tend to express my communication need. I do not want anything to be static. I cut, glue and put together. I am looking for matters and color effects. I have the feeling that the colors make their own decisions and impose them to me. I follow my imagination. The artwork only reveals itself once it is done - as a private diary would do with my secrets, my questions, my inspirations."

Brigitte Perrier was Born in June 1955, in Savoy, France.

EDUCATION

She spends her degree at the Business School of Chambéry in 1976.
