Press Release

We are very pleased to present the new exhibition "Vues de l'esprit", which plays with the relationship between look and knowledge. What do we really see ? Can we look beyond the appearances ?

Three artists are honored this month :

The photographer Didier Fournet, new member of the Envie d'Art team. His series "Vibrations" plays with the boundaries of visible and audible by transforming landscapes into sound waves. Nemo Jantzen works the ideas of depth and reality through his portraits, which are a constellation of other scenes or an assembly of wires. The portrait is not only the reflection of a form, but also the mirror of a mind. Reinhard Gorner, with his monumental photographs of libraries, suggests a real staging of the richness of the mind, revealed by the colossal architecture of the place.
