Location : London,UK

From 16 January 2014 to 01 March 2014

Opening date 15 January 2014

Press Release

Mikael Lafontan :

His work is a quest to find a sort of visual scandinavian identity. his photographs depict a wild, almost untouched nature that seems quite remote. lafontan speaks of the strong link between human life and nature through his art. the lines and structure of his works are always very pure and carefully thought out.

Katharine Le Hardy :

Made across a journey in 2012 though Argentina & Brazil Le Hardy's works are a response to the landscapes she encountered. from the tree-lined rivers leading to the Iguazu falls and to the cityscapes of Rio de Janeiro and Buenos Aires these are startlingly beautiful canvasses, which merge the triumphs of the 20th century abstraction with the splendour of the south american scenery.

Guacolda :

Her work shows a great ability to assemble a large variety of materials: engraving, old advertising posters, sheet music, cardboard & whool yarn. She mixes, draws, braids to write another story of the icon portrayed. famous icons of the century, models, actresses or tribute to art history famous masterpieces, she creates new sorts of metamorphosed portraits!
