Press Release

For many years, Dutch artist Peter Keizer has been painting pictures that are full of life. Evoking nature, and more particularly the abundance of flowers, his paintings are a sure-fire remedy for the falling temperatures and shortening days. In parallel with Damien Hirst's "Cherry Blossom" exhibition at the Fondation Cartier, let's celebrate the blossoming of spring flowers in the heart of autumn, until 22 November at the rue Treilhard gallery, where you will discover the latest works of the painter-sculptor. The mood is one of revival!
