From 06 March 2023 to 12 March 2023

Press Release

Brown, ochre, terracotta, sienna... earth colors remind us of the density of the forest, the warmth of a nourishing soil, our deep ties to Gaia. From tanned leather to wood veins, from autumn leaves to desert dust, brown is everywhere in nature, and naturally, we like to find it at home. There's something comforting and enveloping about a brown palette, and thus in this week's selection of earth tones.

Exhibited Artworks

DIMITRI BOURRIAU

Palazzo Veneziano, 2023
