Press Release

The success of the legendary Blue Note in Manhattan, the films Whiplash and La La Land, and the Montreux Festival are all reminders that jazz is not dead, long live jazz! From its birth in the cotton fields of America to electro-jazz, the sound of saxophones, trumpets and drums will sweep you away. If you too can't stop pounding out the beat as soon as you hear Take Five, you're going to love this week's selection. Because as Louis Armstrong said: 'What we play is life'.
