## Press Release

When the summer heat becomes overwhelming, we naturally seek the coolness of a humid, shady forest. Under the dense foliage, the light becomes softer and the air more breathable. The scents of moss, earth, and damp leaves soothe our senses, and each step on the cool ground takes us further away from the scorching hustle and bustle of the cities. The forest then becomes a refuge, a place where the body is refreshed and the mind is calmed. This week, let's feel the inner peace that our selection of forest-themed works brings us. Take a walk on the wild side...
